After the payment by the Client, the dates for the delivery of the goods that are still to be manufactured might undergo some changes, but this will in no way entitle the Client to claim for any damage compensation.

SPORT PLAYS GREEN.

Da sempre crediamo che si debba vivere sul pianeta in punta di piedi. Ecco perché continuiamo ad investire in tecnologie ecocompatibili e macchinari a basso impatto ambientale. Seguiamo le regole dell'economia circolare eliminando gli sprechi e facendo ricorso ai materiali riciclati.

L'abbigliamento che produciamo obbedisce a questa filosofia grazie a certificazioni rigorose: lo Standard 100 by Oeko-Tex, che garantisce l'assenza di sostanze nocive nei tessuti, e il GRS (Global Recycled Standard), sviluppato da Textile Exchange, che attesta l'uso di materiali riciclati e il rispetto di severi requisiti di tracciabilità, responsabilità sociale, ambientale e controllo chimico lungo l'intera filiera.

Entro il 2030 contiamo di ridurre l'impronta di carbonio del 30% per ogni unità venduta e aumentare del 20% l'utilizzo dei materiali responsabili. Sono passi importanti, a cui ne seguiranno molti altri. Perché l'amore per l'ambiente non basta mai.

We have always believed in taking great care of the planet we live on. That's why we continue to invest in eco-friendly technologies and machinery that has a low environmental impact. We abide by circular economy rules, eliminating waste and making use of recycled materials.

The clothing we make adheres to this philosophy thanks to strict certifications: Standard 100 by Oeko-Tex, which guarantees the absence of harmful chemicals in fabrics, and GRS (Global Recycled Standard), developed by Textile Exchange, which certifies the use of recycled materials and compliance with strict requirements in terms of traceability, social and environmental responsibility and chemical control throughout the entire production chain.

By 2030, we also aim to reduce our carbon footprint by 30% per unit sold and increase the use of sustainable materials by 20%. These are important steps, and many more are to come. Because you can never love the environment too much.

Nous avons toujours été convaincus qu'il faut vivre sur la pointe des pieds sur notre planète. C'est pourquoi nous continuons à investir dans des technologies écoresponsables et des machines à faible impact environnemental. Nous suivons les règles de l'économie circulaire en éliminant tout gaspillage et en utilisant des matières recyclées.

Les vêtements que nous produisons respectent cette philosophie grâce à des certifications rigoureuses: la norme Oeko-Tex® Standard 100, qui garantit l'absence de substances nocives dans les tissus, et la norme GRS (Global Recycled Standard), développée par Textile Exchange, qui certifie l'utilisation de matières recyclées et le respect d'exigences strictes en matière de traçabilité, de responsabilité sociale, environnementale et de contrôle chimique tout au long de la chaîne d'approvisionnement.

À l'horizon 2030, nous comptons réduire notre empreinte carbone de 30 % par unité vendue et augmenter notre utilisation de matières responsables de 20 %. Ce sont des jalons importants, et beaucoup d'autres suivront. Parce qu'on n'en fera jamais trop pour l'environnement.
